

Town Notes Aug./Sept. 2009

Since December of 2007, La Plata's Conservation Corner has been giving you ideas and information to help conserve resources, save money, and make La Plata a better place for you and the environment. In order to help turn some of those ideas on helping our environment into reality, the La Plata Town Council approved funds to provide Conservation Mini-Grants. Over the next year the Town will award several grants of up to \$500 for projects that positively benefit La Plata environmentally. Find a way to inspire action, educate the community, or directly benefit our environment. This is a great outlet for Home Owner Associations, school projects, scout groups, civic organizations, individuals, businesses, and other community members to do something that benefits you, the Town, and the environment. Grant applications will be reviewed by La Plata's Green Building Committee and successful projects will received up to \$500 to help implement the idea. The Town appreciates your interest in helping to make La Plata a better place and wants to help you make that happen.
